It was resolved to approve the remuneration report by the Board of Directors set out above.

§ 17

It was resolved to approve the following guidelines for salary and other forms of remuneration for senior executives at Sectra.

Scope and applicability of the guidelines

These guidelines cover the President and CEO, other members of Group Management and, where applicable, remuneration to Board members for work performed above and beyond their commission. The guidelines will be applied to contractual remuneration, and changes made to remuneration already contracted, after the guidelines are adopted by the 2026 AGM.

The guidelines do not cover remuneration that has been decided by the General Meeting of Shareholders. Board fees will not be paid to executives employed in the Group.

The guidelines' promotion of the company's business strategy, long-term interests and sustainability

Briefly, Sectra's business strategy entails developing and selling products and services for medical IT and cybersecurity. Helping customers improve the efficiency and quality of patient care and increase cybersecurity in critical functions of society is the company's most significant contribution to a more sustainable society. For more information about the company's business strategy, refer to Sectra's latest Annual Report available at the company's website, <https://sectra.com>.

Successfully implementing the company's business strategy and looking after the company's long-term interests, including sustainability, assumes that the company can recruit and retain qualified employees. This requires the company to offer competitive remuneration. These guidelines make it possible to offer senior executives competitive total remuneration.

Long-term share-based incentive programs have been introduced at the company in certain years. These programs are adopted, where necessary, by the General Meeting of Shareholders and are thus not covered by these guidelines.

Forms of remuneration, etc.

The terms and conditions of remuneration must emphasize remuneration after performance, and vary in relation to the individual's performance and the Group's earnings. Total remuneration shall be on market terms and can consist of the following components: fixed cash salary, variable cash remuneration, pension benefits and other benefits.

Fixed remuneration

Fixed remuneration consists of a basic annual salary (the "Basic Salary"), which is to be competitive in the relevant market and reflect the responsibilities that the job entails. Salary levels will be reviewed once a year to ensure continued competitiveness and to reward individual performances.

Variable remuneration

Variable cash remuneration covered by these guidelines must be intended to promote the company's business strategy and long-term interests, including sustainability.

Variable cash remuneration will be based on predetermined and measurable criteria. These criteria must be based on (i) financial earnings (profit, financial efficiency and sales) or alternately operational goals that over the long term are intended to lead to solid financial results; (ii) share-related goals and (iii) non-financial goals such as sustainability, customer satisfaction, quality and corporate culture. They could also consist of individually adapted quantitative or qualitative goals.

Meeting the criteria for disbursement of variable cash remuneration should be measurable over a period of one or more years. Variable cash remuneration can total a maximum of 100 percent of the Basic Salary excluding vacation supplement as regards financial, operative, non-financial and individually adapted goals and a maximum of 25 percent as regards share-related goals during the relevant measurement period.

When the measurement period for meeting the criteria for disbursement of variable cash remuneration has concluded, the extent to which the criteria were met must be determined. The Remuneration Committee is responsible for the assessment regarding variable cash remuneration to the CEO. As regards variable cash remuneration to other executives, the CEO is responsible for the assessment. As regards financial goals, the assessment must be based on the latest financial information released by the company.

In addition to variable remuneration that executives may receive in accordance with these guidelines, the Board of Directors may decide that such executives could be covered by programs for variable remuneration that also cover personnel categories other than senior executives such as all employees in the Group or in a particular business area. Such programs must entitle all employees (regardless of position) to the possibility of the same nominal remuneration.

The Board of Directors must also have the legal or contractual possibility — with the ensuing limitations — of demanding the return in full of erroneously disbursed variable remuneration (so called clawback). Such request for repayment must, where applicable, be made within five years of the disbursement.

Pension and other benefits

For the CEO and other executives covered by these guidelines, retirement and survivor benefits including health insurance must be provided and are to be defined-contribution. Variable cash remuneration must not be pensionable. Pension premiums must total a maximum of 30 percent of the Basic Salary.

The executive must be provided with the possibility of exchanging a portion of the Basic Salary with other benefits such as life insurance, healthcare insurance and a company car, provided that it is cost-neutral for the company.

As regards terms of employment subject to laws other than Swedish, the company may make the proper adjustments concerning pension and other benefits in order to comply with compulsory regulations or local practice, in which case the overall goals of these guidelines must be met to the greatest possible extent.

Period of notice

The period of notice shall be agreed individually and not be more than 18 months.

Salary and conditions of employment for employees

In preparing the Board's proposal for these remuneration guidelines, salary and conditions of employment for the company's employees were taken into account through information on total employee remuneration, the components of remuneration and the increase (and rate of increase) of the remuneration forming a part of the basis for decision by the Board and the Remuneration Committee in assessing the reasonableness of the guidelines and the ensuing limitations.

The decision-making process for adopting, reviewing and implementing the guidelines

The Board of Directors has established a Remuneration Committee, the tasks of which include preparing the Board's decisions on proposals for guidelines on remuneration to senior executives. The Board of Directors will draw up proposals for new guidelines at least once every four years, and present the proposal for resolution by the AGM. The guidelines will be in force until new guidelines are adopted by the General Meeting of Shareholders.

Remuneration to the CEO and, where applicable, Board members (above and beyond ordinary remuneration resolved on by shareholders' meetings) is decided by the Board based on the recommendations of the Remuneration Committee. Remuneration to other executives is determined by the CEO. The Remuneration Committee must also monitor and evaluate programs for variable remuneration to Group Management, the application of guidelines for remuneration to senior executives and applicable remuneration structures and remuneration levels in the company. The members of the Remuneration Committee are independent in relation to the company and Group Management. To the extent they are affected by such issues, neither the CEO nor other members of Group Management are present when the Board discusses and decides on issues related to remuneration.

Departures from the guidelines

The Board of Directors may decide to temporarily depart from the guidelines in full or in part if, in an individual case, there are particular reasons to do so and a departure is necessary to safeguard the company's long-term interests, including its sustainability, or to ensure the company's financial strength. As indicated above, the tasks of the Remuneration Committee include preparing Board decisions on remuneration issues, which includes decisions on departures from the guidelines.

§ 18

It was resolved to introduce a new long-term incentive program for employees in the Sectra Group in accordance with the following ("LTIP 2026").

Resolution on terms and instructions for the incentive program (item 18 a)

Definitions:

1. The Employment Condition refers to the employment conditions that employees must meet in order to be eligible to participate in the Program, namely either that the person (i) is a permanent or probationary employee of the Sectra Group for at least 50 percent of full time at the time of the AGM on September 8, 2026, provided that the person in question then has commenced his or her employment and has not resigned or been dismissed from his employment or has retired or (ii) is deemed by the Remuneration Committee (or, after authorization by the Remuneration Committee, the Sectra CEO) to fulfill the criteria for a Key Person (see below) and who commences his or her employment after the AGM on September 8, 2026 but not later than the day before (a) the AGM 2028 or (b) a resolution by the general meeting to adopt a new long term performance based incentive program, whichever the first to occur of (a) or (b). Permanent and probationary employees who are on sick leave, on leave of absence or on parental leave are also covered by the Program. The Board of Directors has the right to make exceptions from these terms if, according to the Board of Directors' reasonable assessment, there are special reasons.
2. A Key Person is an employee who (i) makes extraordinarily strong contributions to the Sectra Group's development, (ii) is in a senior position, (iii) has particular specialist competence or (iv) in any other way is considered of special importance for the Sectra Group's development.
3. The Qualification Period refers to May 1, 2026 – April 30, 2031. For Key Persons that are employed after the day of the 2026 AGM, the Qualification Period shall, however, be a period that commences on May 1 the financial year after the person's commencement of employment and run until April 30, 2031.
4. A Performance Share refers to a Series B share in the company.
5. A Share Grant refers to a right to receive a Performance Share free of charge, provided that certain conditions are met. If the company carries out a bonus issue, split, aggregation of shares or a similar measure, as a result of which the number of shares in the company changes, the Board of Directors shall be entitled to recalculate the number of Performance Shares that the participants may be entitled to at a conversion of a Share Grant, if the Board of Directors considers such a recalculation to be called for with reference to the purpose of LTIP 2026.

LTIP 2026 includes all employees in the Sectra Group who meet the Employment Condition, meaning that LTIP 2026 is proposed to cover a maximum of 1,500 people.

LTIP 2026 shall comprise a maximum of 780,000 shares for allocation to employees, which means that a maximum of the corresponding number of Share Grants can be allotted.

Each employee shall be offered 150 Share Grants.

In addition, according to the Board of Directors' instructions, Key Persons can be allocated Share Grants up to a total number of not more than 15,000 Share Grants per person.

Since the Qualification Period for Key Persons that have been employed after the day of the 2026 AGM will be shorter than for persons that were employed on the day of the 2026 AGM, such Key Person's allocation shall bear the same proportion to the allocation of a Key Person that was employed on the day of the 2026 AGM as such Key Person's Qualification Period bears to the standard Qualification Period, i.e. May 1, 2026 – April 30, 2031. Example: If a Key Person commences his or her employment on February 1, 2027, such person's Qualification Period will be May 1, 2027 – April 30, 2031, i.e. four financial years instead of five, which means that the Key Person's allocation shall be four fifths (4/5) of the allocation that an equivalent key person would have received if he or she had been employed on the day for the 2026 AGM.

The Board of Directors shall, no later than December 1, 2026, ensure that the terms and distribution of Share Grants are made accessible for eligible employees. Employees who wish to participate in the Program must, no later than December 16, 2026, give notice whether they wish to participate.

Terms

Share Grants shall be allotted free of charge, after the participant has entered into an agreement with Sectra relating to the allotment of Share Grants and in which the terms of participation are described in more detail. Allotment shall be made no later than December 31, 2026. Share Grants may not be transferred, pledged or otherwise transferred to others, with the exception of the participant's estate.

A participant's right to receive Performance Shares is vested during the Qualification Period, provide that the Employment Condition and the Performance Conditions have been fulfilled as detailed below.

The Employment Condition

The participant must fulfill the Employment Condition during the entire Qualification Period. If the participant leaves the employment during a financial year, the participant is not considered to have been employed at all during such financial year, but still during previous financial years during the Qualification Period. The detailed conditions for participants' entitlement to receive Performance Shares, even if they are leaving their employment, shall be determined by the Board of Directors, which shall be entitled to authorize the Sectra CEO to make such determination.

The Performance Conditions

In order to be able to exercise a Share Grant and thereby obtain a Performance Share, the following performance conditions ("Performance Conditions") must be met:

- A. For employees in companies other than Sectra Communications AB and its subsidiaries (the Sectra Communications Group), Sectra must for each financial year during the Qualification Period have achieved
 - (1) first place in "Best in KLAS" (in any category in the employee's region, if that region is not the United States, and in any category except for PACS/Radiology for large hospitals in the United States, if the region is the United States) and
 - (2) first place in "Best in KLAS" for PACS / Radiology for large hospitals in the United States.

The term region shall mean the region to which the person belongs according to KLAS' division of regions for the awards as of the date on which KLAS announces the award, with the exception for individuals who perform duties for a central function or another region than where such individuals have their employment. For employees within central functions in Sweden and for individuals – irrespective of in which legal entity these individual are employed – who perform duties for a central function (such as Sectra AB, Sectra Imaging IT Solutions AB, Sectra Education AB and Sectra Orthopaedics AB) or another region than that in which they have their employment as well as employees outside the regions applied by KLAS, Sectra shall, as regards performance criteria (1), for each financial year during the Qualification Period have achieved at least two first places in "Best in KLAS" in any category in any of the regions, except for PACS/Radiology for large hospitals in the

United States. If an employee changes his or her region during a financial year, such person shall for that entire financial year be considered as belonging to the region in which the person was employed at the commencement of the financial year.

If for a particular financial year KLAS would not grant these awards or the conditions for participating in KLAS' evaluations would change, Sectra's Board of Directors may determine that a different customer satisfaction criterion should be used for that particular year.

Best in KLAS means that Best in KLAS which is granted a particular financial year and is determinative for the fulfillment of the performance criteria for the financial year during which the award is announced. Example: if Sectra achieves Best in KLAS in June 2027 that award is relevant for the fulfillment of the performance criteria for the financial year 2027/2028.

- B. For employees in the Sectra Communications Group, for each financial year during the Qualification Period, the Sectra Communications Group must have achieved
 - (1) an operating margin (EBIT margin) of at least (a) 19 percent, as regards the financial year 2026/2027, (b) 20 percent, as regards the financial years 2027/2028 and 2028/2029, and (c) 21 percent, as regards the financial years 2029/2030 and 2030/2031; and
 - (2) a turnover growth of at least 10 percent compared to the previous financial year. In case of an acquisition or a transfer of a business during a particular financial year, the Sectra's Board of Directors shall determine what impact it will have on the performance criteria.
- C. In the event of transitions between the Sectra Communications Group and other companies within the Sectra Group, the criteria for the Program you leave will apply up to and including the financial year during which the transition occurs and the Program to which you transition shall be applied from the first full financial year after the transition has taken place.

For each financial year during the Qualification Period (with the financial year 2026/2027 being the first) that one of the above-mentioned Performance Conditions has not been met, one tenth of the participant's all Share Grants shall lapse.

The Board of Directors may, with respect to a particular financial year, make an exception from the requirement that a Performance Criteria must be fulfilled in order for Share Rights not to lapse, if there are extraordinary reasons for such an exception.

When allocating Performance Shares, the total sum of the number of Share Grants is rounded down to the nearest whole number. Performance Shares shall be allotted by August 31, 2031, at the latest.

Design and handling

The Board of Directors shall be responsible for the detailed design and handling of LTIP 2026, within the framework of the specified terms and instructions, including provisions for recalculation in the event of changes in Sectra's capital structure such as intermediate bonus issue, split, aggregation of shares or a similar measure, as a result of which the number of shares in the company changes. In connection with this, the Board of Directors shall have the right to make adjustments to comply with special foreign rules or market conditions. If there are significant changes in the Sectra Group or its surroundings, which would mean that decided conditions for the allocation and vesting of Share Grants according to LTIP 2026 are no longer appropriate, the Board of Directors shall have the right to make other adjustments. Before the Board of Directors decides on vesting and payment in accordance with the terms of the Share Grants, the Board of Directors shall determine whether the outcome from LTIP 2026 is reasonable. This determination shall be performed in relation to the company's financial results and position, the conditions on the stock market and otherwise. If the Board of Directors, in its determination, concludes that the outcome is not reasonable, the Board of Directors shall be able to reduce the number of Class B shares to be allotted.

Receipt of Performance Shares in accordance with LTIP 2026 and hedging measures

Shares which are required for LTIP 2026 may be acquired by the Board of Directors in different manners:

- A. To the extent that shares acquired under the previously mentioned programs (LTIP 2021, LTIP 2022 and LTIP 2024) are not required for the programs for which they have been acquired, such shares shall be possible transfer to participants in other programs (including LTIP 2026) or be used to finance social security contributions and payroll overhead as a result of other programs (including LTIP 2026). Correspondingly, shares acquired under LTIP 2026 should be possible to transfer to participants in other programs or to finance social security contributions and payroll overhead as a result of such other programs.
- B. Since previously issued shares are not expected to be sufficient for the requirements that arise as a result of LTIP 2026, it is proposed that the Board of Directors be authorized – as the Board of Directors may decide – to either (i) acquire the company's own shares in accordance with item 19 below or (ii) resolve to issue a maximum of 1,000,000 C shares to the bank that the company engages, in order to facilitate the delivery of Performance Shares and financing of costs for social security contributions and payroll overhead under LTIP 2026, after which the issued Class C shares could be repurchased and be converted to Class B shares (see item 18 (b) below). A maximum of 780,000 of the company's own Class B shares (acquired under (i) or issued under (ii) above) should thereafter be transferred at no consideration to participants of LTIP 2026 and other incentive programs and a maximum of 220,000 of the Company's own Class B shares should thereafter be transferred at Nasdaq Stockholm to finance social security contributions and payroll overhead under LTIP 2026 and other incentive programs (see item 18 (c) below).

Sectra's performance in 2025/2026

The CEO summarizes the company's overall performance in his statement on pages 12-14 of Sectra's Annual Report and Sustainability Report for 2025/2026. A more detailed account of the company's performance is presented in the Administration Report on pages 70-79.

The company's remuneration guidelines: scope, purpose and deviations

One prerequisite for successfully implementing the company's business strategy and safeguarding its long-term interests, including its sustainability, is the company's ability to recruit and retain qualified employees. To this end, the company must offer competitive remuneration. The company's remuneration guidelines make it possible to offer senior executives competitive total remuneration. In certain years, in addition to the remuneration covered by the remuneration guidelines, the company's Annual General Meeting has resolved on the introduction of long-term share-based incentive programs.

In accordance with the guidelines, the terms and conditions must emphasize remuneration after performance, and vary in relation to the individual's performance and the Group's earnings. Remuneration to senior executives is to be on market terms and can consist of the following components: fixed cash salary, variable cash remuneration, pension benefits and other benefits. Variable cash remuneration is to be based on predetermined and measurable criteria. These criteria should be based on:

- (i) financial performance (profit, financial efficiency and sales) or alternately operational goals that over the long term are felt to lead to solid financial results;
- (ii) share-based goals; and
- (iii) non-financial goals such as sustainability, customer satisfaction, quality and corporate culture.

They should also consist of individually adapted quantitative or qualitative goals. The criteria are to be designed to promote the company's business strategy and long-term interests, including its sustainability. In addition to variable remuneration that executives may receive in accordance with these guidelines, the Board of Directors may decide that such executives could be covered by programs for variable remuneration that also cover personnel categories other than senior executives such as all employees in the Group or in a particular business area. Such programs must entitle all employees (regardless of position) to the possibility of the same nominal remuneration. The complete guidelines are presented on pages 78-79 of the company's Annual Report and Sustainability Report for 2025/2026.

In 2025/2026, the company complied with the applicable remuneration guidelines adopted by the Annual General Meeting. No deviations from the guidelines occurred, and no deviations occurred from the decision-making process that is to be applied in accordance with the guidelines to establish the remuneration. No repayment of remuneration has been demanded. Under an agreement entered into before these principles were established, Sectra's President and CEO has a period of notice of 18 months. This marks a deviation from the most recently established guideline stipulating that executives who have reached the age of 67 are to have a maximum period of notice of six months. The remuneration report and the auditor's statement on the company's compliance with the guidelines will be available at <https://investor.sectra.com/agm2026> ahead of the 2026 AGM.

¹ Fixed remuneration (basic salary incl. vacation pay) 25/26 amounted to SEK 4,993 thousand, excluding pay raises pertaining to savings on pension costs² and social security contributions³. Fixed remuneration of SEK 10,374 thousand includes retroactive payments of SEK 2,811 thousand.

² Contributions to pensions cease upon reaching retirement age. The CEO's pay raise corresponded to the amount that the company saved in pension costs, making it cost-neutral for the company.

³ As of January of the calendar year in which the employee turns 67, social security contributions are reduced from 31.42% to 10.21%. The CEO received a pay raise corresponding to the amount saved by the company due to the lower social security contributions. The Remuneration Committee decided that this salary adjustment will be applied to all employees as of the calendar year in which they turn 67.

⁴ The Executive Vice President has received remuneration from other companies in the Group.

⁵ The President and CEO can receive up to 50% of their fixed monthly salary as variable remuneration. All of the performance criteria for variable remuneration 24/25 and 25/26 were met.

⁶ The Executive Vice President can receive up to 100% of their fixed monthly salary as variable remuneration. Some of the performance criteria for variable remuneration 24/25 and 25/26 were met.

⁷ The presentation of variable remuneration has been revised. Previous remuneration reports included reserved costs for variable remuneration. These amounts are now based on actual remuneration earned to provide a more accurate picture.

Application of performance criteria

The performance criteria for variable remuneration for the President and Executive Vice President have been selected in order to realize the company's strategy and to encourage behavior that is in the long-term interests of the company. The strategic goals as well as short-term and long-term business priorities were taken into account in the selection of performance criteria. The non-financial performance criteria also contribute to the adaptation to sustainability as well as the company's values.

All of the performance criteria for the CEO, and some of the criteria for the Executive Vice President, were met for 2024/2025 and 2025/2026.

Share-based incentive programs

LTIP 2021

In the 2021/2022 fiscal year, two performance-based share programs (long-term incentive programs) were introduced for all employees. One program is for North America (LTIP NA) and one is for employees in the rest of the world (LTIP SROW). The qualification period is January 1, 2022 to December 31, 2026. The prerequisites for vesting are continued employment and holdings of so-called savings shares throughout the entire qualification period. In addition, there are a number of performance conditions as described below.

For every calendar year during the term of the program (qualification period) for employees in North America, Sectra must have a) received a minimum of one “Best in KLAS” award (in any category), and b) received a first, second or third place ranking in “Best in KLAS for PACS/Radiology for large hospitals” in the US or Canada depending on where the participant is employed. For employees in the rest of the world, in addition to the performance conditions above, the employee must have deposited savings shares in a deposit account specified by Sectra. One savings share comprises one Class B share in Sectra AB. The number of savings shares is to correspond to the number of share rights the employee has been allotted. The savings shares are to be deposited during the entire qualification period.

For every calendar year during the qualification period for employees in companies other than Sectra Communications AB and its subsidiaries (the Sectra Communications Group), Sectra must have a) received a minimum of one “Best in KLAS” award (in any category), and b) received a first, second or third place ranking in “Best in KLAS for PACS/Radiology for large hospitals” in the US. For employees in the Sectra Communications Group, the Sectra Communications Group must have, for every calendar year during the qualification period, a) achieved an operating margin of at least 15%, and b) achieved EBIT growth of at least 8% year-on-year.

For each calendar year in which any of the performance prerequisites are not achieved, one-tenth of the allotted share awards expire. One share award pertains to the right to receive a performance share free of charge provided that the above conditions are met. One performance share comprises one Class B share in Sectra AB.

LTIP 2022

In the 2022/2023 fiscal year, a performance-based share program (LTIP 2022) was introduced for all employees. The qualification period is January 1, 2023 to December 31, 2027. The prerequisites for vesting are continued employment and a number of performance conditions as set out below.

For every calendar year during the qualification period for participants in the program who are not employees of the Sectra Communications Group, Sectra must have a) received a minimum of one “Best in KLAS” award (in any category) in the employee’s region, and b) received a first, second or third place ranking in “Best in KLAS for PACS/Radiology for large hospitals” in the US. “Region” refers to i) for employees in the US: the US, ii) for employees in Canada: Canada, iii) for employees in Europe incl. Sweden: Europe and iv) for employees in ANZ: Asia-Pacific. For employees in central functions in Sweden (Sectra AB, Sectra Imaging IT Solutions AB, Sectra Medical Education AB and Sectra Orthopaedics AB) and employed outside of the previously mentioned regions, Sectra must have a) received a minimum of two “Best in KLAS” awards in any category in any of the regions for each calendar year during the qualification period.

The research company KLAS Research has revised the division of regions for the Best in KLAS awards. As a result, in June 2024, the Board of Directors, supported by the Annual General Meeting’s instructions and the terms of LTIP 2022, resolved to modify the performance criteria linked to Sectra winning Best in KLAS in accordance with the following: “region” refers to the region the employee belongs to, based on the KLAS division of regions for the awards handed out each calendar year.

For employees of the Sectra Communications Group, the Sectra Communications Group must have, for every calendar year during the qualification period, a) achieved an operating margin of at least 10% for the 2022/2023 fiscal year and at least 15% for the following fiscal year, and b) achieved EBIT growth of at least 10% year-on-year.

For each calendar year in which any of the performance prerequisites are not achieved, one-tenth of the allotted share awards expire. One share award pertains to the right to receive a performance share free of charge provided that the above conditions are met. One performance share comprises one Class B share in Sectra AB.

LTIP 2024

In the 2024/2025 fiscal year, a performance-based share program (LTIP 2024) was introduced for all employees. The qualification period is May 1, 2024 to December 31, 2029. The prerequisites for vesting are continued employment and a number of performance conditions as set out below.

For every calendar year during the qualification period for participants in the program who are not employees of the Sectra Communications Group, Sectra must have 1) received a first place ranking in “Best in KLAS” in any category in the employee’s region, if the region is not the US, and in any category except for PACS/Radiology for large hospitals in the US, and 2) received a first place ranking in “Best in KLAS for PACS/Radiology for large hospitals” in the US.

“Region” refers to the region to which the individual belongs, based on the KLAS regional division for the awards as of the date KLAS announces the award. As regards performance condition (1), for employees in central functions in Sweden (Sectra AB, Sectra Imaging IT Solutions AB, Sectra Education AB and Sectra Orthopaedics AB) and employed outside the regions applied by KLAS, Sectra must have received a minimum of two first-place rankings in “Best in KLAS” in any category in any of the regions, with the exception of PACS/Radiology for large hospitals in the US, for each fiscal year during the qualification period. If an employee changes region during a fiscal year, the individual in question is considered to belong to the region in which the individual was employed at the beginning of the fiscal year for the duration of the fiscal year.

Following the Annual General Meeting, the Board of Directors have agreed on an interpretation of the performance conditions. The performance conditions that refer to “employees in central functions” are also to apply to employees working for central functions in Sweden who are employed in one of Sectra Group’s subsidiaries other than the listed legal entities. This interpretation applies as of January 1, 2025 for LTIP 2022 and LTIP 2024.

For employees in the Sectra Communications Group, for each fiscal year during the qualification period, the Sectra Communications Group must have achieved 1) an operating margin (EBIT margin) of at least (a) 15%, as regards the 2024/2025 fiscal year, (b) 17%, as regards the 2025/2026 fiscal year, (c) 19%, as regards the 2026/2027 fiscal year and (d) 20%, as regards the subsequent fiscal years, and 2) sales growth of at least 10% compared with the previous fiscal year.

For each calendar year in which any of the performance prerequisites are not achieved, one-tenth of the allotted share awards expire. One share award pertains to the right to receive a performance share free of charge provided that the above conditions are met. One performance share comprises one Class B share in Sectra AB.

The auditor's report on remuneration

TRANSLATION FROM THE SWEDISH ORIGINAL

Auditor's report in accordance with Chapter 8, Section 54 of the Swedish Companies Act (2005:551) on whether the guidelines adopted by the General Meeting regarding remuneration to Group Executive Management have been complied with

To the General Meeting of Sectra AB (publ), corporate identity 556064-8304

We have examined whether the Board of Directors and the Managing Director of Sectra AB (publ), have, for the financial year 2025/2026, complied with the guidelines on remuneration to Group Executive Management, adopted at the General Meeting on September 8, 2022.

Responsibilities of the Board of Directors and the Managing Director

The Board of Directors and the Managing Director are responsible for compliance with the guidelines and for the internal control the Board of Directors and the Managing Director determine is necessary to ensure compliance with the guidelines.

Auditor's responsibility

Our responsibility is to issue a report, based on our examination, to the General Meeting regarding whether the guidelines have been complied with. The examination has been performed in accordance with FAR's recommendation RevR 8 *Granskning av ersättningar till ledande befattningshavare i vissa publika aktieföretag* (Examination of Remuneration to Group Executive Management in Certain Listed Companies). Those standards require us to comply with the ethical requirements, and also to plan and perform the examination in such a manner that we may obtain reasonable assurance about whether the guidelines on remuneration have been complied with. The firm applies International Standard on Quality Management 1, which requires the firm to design, implement and operate a system of quality management, including policies or procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

We are independent of Sectra AB in accordance with professional ethics for accountants in Sweden and have otherwise fulfilled our ethical responsibilities in accordance with these requirements.

The examination has covered the company's organization and documentation of issues concerning remuneration for Group Executive Management, new decisions concerning remuneration, as well as a selection of the financial year's payments to Group Executive Management. The procedures selected depend on the auditor's judgement, including the assessment of the risk that the guidelines have not, in all material respects, been complied with. In making this risk assessment, the auditor considers internal control relevant to the company's compliance with the guidelines in order to design procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.

We believe that our examination provides a reasonable basis for our conclusion.

Conclusion

In our opinion the Board of Directors and the Managing Director of Sectra AB (publ) have, during the financial year 2025/2026, complied with the guidelines on remuneration to Group Executive Management, which were adopted by the General Meeting on September 8, 2022.

**The Board of Director's motivated statement in accordance with
Chapter 19, Section 22 of the Companies Act**

The Board of Directors' statement in accordance with Chapter 19, Section 22 of the Companies Act (2005:551)

The Board of Directors hereby presents the following statement in accordance with Chapter 19, Section 22 of the Companies Act (2005:551).

The Board of Directors' reasons for the proposed authorizations to repurchase the company's own shares being in accordance with the provisions of Chapter 17, Section 3, paragraphs 2 and 3 of the Companies Act are as follows:

The company's objects, scope, and risks

The company's objects and scope of business are set out in the Articles of Association and the annual reports provided. The business conducted by the company does not entail any risks in excess of those that exist or may be deemed to exist in the industry or those risks which are generally associated with operating a business.

The financial position of the company and the group

The financial position of the company and the group as at April 30, 2026 is stated in the latest annual report. The annual report also states which accounting principles are applied in the valuation of assets, allocations and liabilities.

The non-restricted equity in the parent company and the group's retained profits amounted to SEK 1,200.8 million and SEK 1,634.8 million respectively at the end of the 2025/2026 financial year.

The annual report states that the debt/equity ratio is 47.8 per cent. Authorization to purchase the company's own shares does not endanger the completion of any necessary investments.

The company's financial position does not give rise to any other conclusion than that the company can continue its business and that the company can be expected to fulfil its obligations on both a short and long-term basis.

In the opinion of the Board of Directors, the amount of shareholders' equity as reported in the latest annual report is in reasonable proportion to the scope of the company's operations and the risks associated with conducting operations in consideration of the authorization to repurchase the company's own shares now proposed.

Justification for the proposal to repurchase

With reference to the above and to what has otherwise come to the knowledge of the Board of Directors, the Board of Directors is of the opinion that after a comprehensive review of the financial position of the company and of the group it follows that the proposed authorization to repurchase the company's own shares is justified according to the provisions of Chapter 17, Section 3, paragraph 2 and 3 of the Swedish Companies Act, i.e. with reference to the requirements that the objects of the business, its scope and risks place on the size of the company's and group's equity and the company's and the group's consolidating requirements, liquidity and financing needs in general.
